## What Does Our Homework Cafe Offer?

- Help with nightly homework
- Assistance with ALL subjects, including higher science, and higher math
- Long-term Projects
- Study Skills
- Test Prep
- Spanish

## Who Can Benefit from After School Tutoring?

Any student, grades K-12, who struggles with completing homework independently can benefit. Students who need extra assistance and attention with homework will receive this with our low ratio of learning coach to student. This attention and help with the encouragement of independence will allow the students to become efficient, empowered learners.

## What are the Qualifications of Our Learning Coaches?

All of our learning coaches are educationally trained, either currently in programs towards teaching, special education, or speech and language, or they have completed their degrees.

## How Do Learning Coaches Help?

Our learning coaches will be supervised by a Board Certified educational therapist who is trained to work with kids who struggle in school and with kids who have learning differences. If your child has difficulty getting his or her homework done in a timely manner or if he or she fights with you to do homework, the Homework Cafe is the place to come. We make homework fun and as painless as possible.

## Why Go To The Homework Cafe?

Doing homework at the Homework Cafe takes the stress of homework out of the home. The home is a place for relaxation and quality family time. The Homework Cafe is a fun place for students to learn together with qualified learning coaches.

## What are the Benefits of Going to the Homework Cafe?

The Homework Cafe gives students an opportunity to work with other students who are also struggling with their homework. They will be working with trained, qualified learning coaches who will help them with their assignments while boosting their self-esteem and creating independence.
